

Abdulrahman Zidan

JUNIOR PENETRATION TESTER | CYBERSECURITY

+201092637006 | abd3lra7manzidan@gmail.com

Professional Summary

Computer Science Engineering student holding CompTIA Security+, CCNA, and CompTIA A+ certifications, with experience managing business systems and developing dozens of websites. Combines security and networking fundamentals with programming knowledge and practical Linux/Windows proficiency. Targeting junior penetration testing roles and internships in Egypt, on-site or remotely.

Certifications

CompTIA Security+ | CompTIA

Cisco Certified Network Associate (CCNA) | Cisco

CompTIA A+ | CompTIA

Technical Skills

Security & Vulnerability Fundamentals: Knowledge of attack surfaces, common vulnerabilities, misconfigurations, vulnerability assessment and management, penetration-testing concepts, CVE/CVSS, SQL injection, cross-site scripting (XSS), and remediation principles.

Security Architecture & Operations: Fundamentals of authentication, access control, least privilege, hardening, cryptography/PKI, network and application security, endpoint protection, cloud and virtualization security, monitoring and logs, incident response, risk and governance, security policies, resilience, and recovery.

Networking: TCP/IP, IPv4/IPv6, subnetting, routing and switching, VLANs and inter-VLAN connectivity, static routing, OSPF fundamentals, DNS, DHCP, NAT, wireless networking, ACLs, device security, VPN concepts, network troubleshooting, and automation/programmability fundamentals.

IT Systems & Support: Hardware and software troubleshooting, peripherals and mobile-device support, OS installation and configuration, virtualization/cloud fundamentals, backup and recovery, and operational procedures.

Programming & Computer Science: Python; HTML, CSS, JavaScript and web development; Java, C++, and C#. Academic foundations in data structures, digital logic, computer architecture, microprocessors, and assembly language.

Operating Systems

Linux: Kali Linux, Ubuntu, Fedora | **Windows**

Confident practical use, supported by training in installation and configuration, command-line utilities, file and permission management, and troubleshooting.

Technical Experience & Projects

- **Business Systems Management:** Managed systems used by companies.
- **Website Development:** Developed dozens of websites.

Education

Modern Academy, Maadi

B.Sc. in Computer Science Engineering (in progress)

2024–Present | Expected graduation: 2028 | GPA: 3

Best Computer Graphics Project Award (2026)
